The funeral will occur tomorrow afternoon at 3 o'clock at the residence of Mr. McLean at 1124 Berea street.

Mongolia
Japs Had
No Trouble

THE NEW IMMIGRATION LAW
PROVES NO BARRIER—ARE NOT
EVEN QUESTIONED.

SAN FRANCISCO, February 26.—Six hundred and thirty-one Japanese coolies, who arrived last night on the Mongolia, were allowed to land this morning without question. Immigration Commissioner Hart North asserts that he has no authority to stop them because he has received no word from Washington.

The law recently passed by Congress has not gone into effect, although it has been passed and has received the signature of the President, and may not be much avail in checking these inroads. The President has the right to revoke the passports at any time, but there is no assurance that he will do so. The agreement made by Schmitt, vague as it is, will not prove an absolute bar.

LONDON, March 6.—Lords Curzon and Rosebery are candidates for the

Shall Not Haul Dynamite On Street Cars

JAPANESE ARE VIOLATING LAWS
—SPECIAL REGULATIONS ARE TO BE PREPARED TO SUIT CASE.

Superintendent of Public Works Holloway is preparing some regulations to check Japanese carrying dynamite and giant powder on street cars. Complaint has been made to Superintendent Holloway that Japanese who are engaged in working at the Kaimuki quarries have been in the habit of carrying their explosives for blasting on the street cars.

Such action constitutes a menace to lives and the Superintendent proposes to put a stop to it at once. The Japanese may carry the explosives from their homes to the quarries, through ignorance of the laws governing the transportation of explosives, and as soon as it be known made to them that they are at fault, they may desist. Holloway will cause to be published in Japanese, newspapers notices of warning against the Japanese carrying explosives on the street cars. An explosion of the stuff would probably cause the loss of lives and the injury of others riding on the cars.

Under the statutes the Superintendent of Public Works has the right to make regulations covering the transportation of explosives. Any violation can be attended by a fine of not less than \$20 nor more than \$100. There is no law to prevent the Japanese blasting and it is not proposed to check that work.

Criminal Prosecution Threatened

U. S. OFFICIALS WILL PROBABLY INSTITUTE NEW PROSECUTION AGAINST A-H. S. S. COMPANY.

Criminal proceedings will, in all probability, be instituted by the local United States officials against the American-Hawaiian S. S. Company. The grounds on which such proceedings will be instituted will be that the company has been engaged in a conspiracy according to the contention of the Federal officials in the restraint of trade.

Evidence given by C. P. Morse, the general freight agent of the company, has gone, so the United States officials contend, to show that the company has been engaged in giving rebates and otherwise favoring the three defendant concerns in the Lumber Trust case. Morse testified today that a rebate of \$4 per 1000 feet of lumber, from a standard rate of \$11, was given to the three defendants on shipments over 150,000 feet, and on shipments as low as 37,000 feet. The witness was excused this morning after testifying briefly as he had to attend to dispatching the S. S. Alaskan for Kahului.

Mr. Hugo of H. Hackfeld & Company, the local agents of the company, gave evidence relative to the shipment of lumber to this port.

LISTEN TO THE WHISTLE.

Tomorrow is to be the big day for the Y. M. C. A. The feature of the day will be the whistle, which will blow every time twenty members are secured. The Lucas planing mill have given the association the use of their big whistle for the day and the committee hope to use it often. A big dial showing the hours of the day and also numbered from one to one hundred has been placed in the window of the headquarters, on Fort just mauka King and this will register the progress of the campaign during the day.

The whistle signal will be one long blast so no one will get it confused with the fire or boat signals. A good many are interested to know how early in the morning the first signal will be blown.

LANAI PASTURE
BETTER THAN OAHU

ALEXANDER DOWSETT SO TESTIFIES BEFORE HOUSE COMMITTEE LAST NIGHT.

At the hearing last night before the House Committee that is investigating the Lanai deal, Alexander Dowsett who lived on Lanai for a considerable time, testified that on the whole the pasture lands of Lanai are better than those of Oahu.

John Kidwell testified that there were 25,000 acres of good hay land on Lanai. He did not think it would be profitable to raise hay there to export to the other islands, but that was because of the high freight rates charged.

Alexander Dowsett who had lived

\$2500
will buy a fine home.

P. O. Box 694.

two years on Lanai testified that when he went to Lanai as manager for Pain and Neumann the island supported 700 horses, 4,000 sheep, 175 cattle and about 10,000 goats.

As to the water supply he said that there was twenty-five miles of beach on Lanai on which water could be found anywhere by digging shallow wells. In fact the horses and goats were able to find it in abundance without any wells. The water is brackish, it is true, but not so brackish that animals will not drink it, or thrive on it. By developing further back from the shore better water can be found.

Dowsett also testified that while he lived there he raised all the vegetables he wanted during the rainy season, and had sweet potatoes nine months in the year.

HAWAIIAN SUGAR
COMPANY'S DIVIDEND

The Board of Directors of the Hawaiian Sugar Company at their last meeting voted that beginning with May 15, the monthly dividend will be decreased from one and a half per cent to one per cent a month.

Let your will govern your action. Put your valuables where they will be safe and relieve yourself of a source of worry. Private boxes \$4.00 a year at Henry Waterhouse Trust Co.

TERRITORY ATTACHES MONEY.

The Territory has garnisheed the Bishop Trust Co. which holds \$2,226.20 received from Sydney to be paid W. H. Wright, in its suit to recover money stolen by the long missing Treasurer.

Open Stock Dinner Ware Patterns

Before the advent of the "open-stock" idea in dinnerware one had to buy dinner sets of fixed composition as made up by the manufacturer. When you broke a piece it took months to obtain one to match it—frequently it was an impossibility.

From an open-stock pattern you can nowadays build up a set from a small initial purchase or you can buy a complete set. And we can replace any breakage instantly—because we carry the patterns in bulk, not as sets. See the point?

Many new patterns recently added.
